Italian	B1
German	A1

EXPERIENCE

09/2025 – Present | Munich, Germany

Kyrall GmbH — AI Product Design Engineer

- **AI Strategy & Feature Definition:** Explored and defined AI-assisted CAD modeling features, including AI suggestions, generation guidance, and non-chatbox interaction patterns for engineering workflows.
- **Product & UX/UI Ownership:** Built the design system and led UX/UI design across the web app and website, shaping core product flows and iterating designs based on testing and feedback.
- **AI Workflow Design:** Designed end-to-end workflows for AI-driven CAD generation, from multi-prompt input to generation feedback, waiting states, result review, and post-editing.
- **Frontend Implementation:** Implemented editor and dashboard UI components with React, HTML, and CSS, including layout, styling, and interaction logic.

09/2024-07/2025 | Munich, Germany

DPS & wetter.com — UX/UI Design Engineer

- **AI Concept & Research:** Surveyed 260 users and conducted 25 interviews to define a GenAI mascot-outfit weather app concept for younger audiences.
- **AIGC Interaction Design:** Designed an AI-assisted mascot generation workflow, translating weather data into adaptive outfit concepts and visual variations.
- **UXUI & Frontend:** Built high-fidelity prototypes and iterated AI mascot interactions through testing, then implemented responsive UI using Tailwind CSS.

02/2024-05/2024 | Turin, Italy

Granstudio — UX/UI Design Intern

Interactive/Visual Design for JIYUE Supercar

- **Interaction Design:** Defined and optimized infotainment system interaction design, establishing interaction guidelines.
- **Visual Design:** Converted conceptual ideas into visual and animation solutions through interaction analysis.

HMI Experience Design for a Haier Smart Home Appliance

- **Trend Research:** Performed industry research on competitors, electronics, and in-car interfaces, summarizing 27 trends related to technology, UI, and UX.
- **Conceptual Solutions:** Created innovative user experience concepts by integrating brand characteristics and research, generating 3 sets of conceptual proposals.
- **Solution Outputs:** Delivered one comprehensive set of user experience design solutions, covering the entire process from concept to UX/UI implementation.

03/2021-07/2021 | Shenzhen, China

Tencent CSIG Business Group — Interaction Design Intern

- **Interaction Design:** Responsible for the interactive design of gamified teaching activities, with over 10 activities already launched.
- **User Testing:** Conducted user testing, observing interaction and completion rates, and iteratively optimizing results.

EDUCATION

10/2021-07/2024 | Turin, Italy

Politecnico di Torino — MSc in Systems Design

(GPA: 91 / 100) Innovative Design, Human-Computer Interaction, Virtual Design, Product Component Design, System Design, Ecology, Economic Project Management

09/2017-07/2021 | Shenzhen, China

Shenzhen University — Bachelor in Industrial Design

(GPA: 93/100) Design Thinking, Fundamentals of Product Design, Design Thinking and Innovation for Smart Products, Product Design Methodology, Ergonomics.
